SINGTEX®

**APPARELS ENJOY LOW IMPORT TARIFFS
IN THE UNITED STATES**

STORMFLEECE™ PRO Using Standard AATCC 35-Water Resistance: Rain Test.

CUSTOMIZABLE PATTERN

Different geometrical shapes tailored to your needs.

S.Café® PATENTED TECHNOLOGY PLUS

WATER RESISTANT
Water repellency /DWR/
Passes rain test standard.

WIND RESISTANT
Wide array of wind
resistant ratings test.

DURABLE
Washing machine friendly
/No risk of delamination.

ABRASION
Fit for outdoor sports.

MODERATE STRETCH
Designed for mobility.

BREATHABLE
Dissipates excess heat.

**LESS
MICROFIBER LOSS**
Densely woven minimizes
the chance of losing
fibers during laundry.

SOFT LIKE KNITTED
Looks like woven,
feels like knit.

**LESS
CARBON FOOTPRINT**
Less energy consumption
in production
/No lamination and
bonding process.

STORMFLEECE™'s unique patented single layer woven technology unites softshell and fleece into one, achieving the right balance between breathability, wind resistance and/or water resistance. Its densely woven surface blocks wind and/or water without the need for lamination making it durable to washes. With its single layer construction, the fabric is lighter and less bulkier compared to 2 or 3 layer fabrics.

Huggably soft

"buyers are going for technical fabrics that are cosy, like plush toys for children..."

By *Première Vision Paris*, Autumn Winter 17-18, The buyers' choices
